

Open position: Project Manager, R&D

We are currently looking for a new team member to join us for a 6-month full-time position from July 2017, with a possibility of prolongation.

Open position: Project Manager, R&D

Schedule: Full-time

Location: Zurich, Switzerland

Function: leading and carrying out DNA-tracing projects from conception to release, ensuring quality and timeliness of execution.

Responsibilities:

- Develop project plans based on the project scope, deadlines, and product requirements.
- Track, monitor, and report project progress and deliverables.
- Implement and manage project interventions and escalations of critical issues to achieve project goals.
- Help Haelixa team in delivering a great product!

Requirements:

- MS or PhD degree in Chemistry, Chemical Engineering, Biochemistry, Materials Science, Nano-Technology or related technical field or combination of education and experience
- Comfortable in working independently and capable of self-direction
- Flexibility and dynamism to work in a high-speed, high-intensity work environment
- Passionate about working in a start-up
- Strong team player attributes
- Excellent verbal and written communication skills
- As we plan to build our SOLA team (<https://asvz.ch/event/412-sola-stafette>) by 2020, the faster you run, the better!

Send your CV by email: m.puddu@haelixa.com

We look forward to your application!
